Thread Length:

0.312 inches single mounting facility

Overall Length:

2.156 inches

Shaft Length:

0.563 inches single actuator

Individual Section Quantity:

1

Switch Contact Basic Design:

Nonpile-up nonsymmetrical

Mounting Method:

Threaded bushing single mounting facility

Contact Voltage Rating In Volts:

250.0 ac at sea level

Switch Actuator Indexing Position Quantity:

2 single actuator

Shaft Type:

Round, v channelled single actuator

Terminal Type:

Quick disconnect, male

Switch Actuator Stop Device Type:

Fixed stop single actuator

Contact Load Current Rating:

20.0 amperes resistive load ac at sea level

Style Designator:

Snap or line

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A052b0
