**Overall Length:**

3.718 inches

**Overall Diameter:**

0.625 inches

**Temperature Sensing Element Type:**

Internal sensor

**Nonpile-up Contact Arrangement:**

1 pole, single throw, normally closed, momentary action

**Terminal Type:**

Wire lead

**Contact Load Current Rating:**

5.0 amperes resistive load single voltage

**Contact Adjustability:**

Actuation point adjustable, preset

**Contact Adjustment Range:**

-100.00/+400.00 actuation point degrees fahrenheit

**Contact Voltage Rating In Volts:**

230.0 ac at sea level single voltage

**Frequency In Hertz:**

60.0 single voltage

**Style Designator:**

Cylindrical

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A048b0
