Overall Length:

3.718 inches

Overall Diameter:

0.625 inches

Temperature Sensing Element Type:

Internal sensor

Nonpile-up Contact Arrangement:

1 pole, single throw, normally closed, momentary action

Terminal Type:

Wire lead

Contact Load Current Rating:

5.0 amperes resistive load single voltage

Contact Adjustability:

Actuation point adjustable, preset

Contact Adjustment Range:

-100.00/+400.00 actuation point degrees fahrenheit

Contact Voltage Rating In Volts:

230.0 ac at sea level single voltage

Frequency In Hertz:

60.0 single voltage

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A048b0
