General Description:

U-shaped housing aligns light emitting diode and photo semiconductor subassys, light beam less than 0.060 in. W, output porm 0.500 vdc of input w/light beam unobstructed, output 0.600 vdc maximum w/5.000 vdc input and light beam obstructed, incl lens and cable assembly, approx o/a dim. 17.775 in. Lg by 1.750 in. W by 0.875 in. H

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
