Individual Section Quantity:

5

Switch Contact Basic Design:

Nonpile-up symmetrical

Mounting Method:

Flange single mounting facility

Switch Actuator Indexing Position Quantity:

12 single actuator

Switch Actuator Positioning Increment:

30.0 degrees single actuator

Special Features:

Interrupter wafer and contactor connected to solenoid located on front of switch

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A052b0
