Inclosure Material:

Plastic, arc resistant

Overall Length:

70.3 millimeters

Overall Height:

29.21 millimeters

Environmental Protection:

Dustproof

Switch Type:

Rotary

End Application:

Digital video integrator/processor (dvp) 6 level

Inclosure Type:

Fully enclosed

Mounting Configuration:

2.54 in. Diameter mtg holes

Controlling Agency:

Digitran company

Identifying Number:

8000 type no.

Individual Switch Quantity:

4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
