Overall Length:

3.624 inches

Individual Section Quantity:

1

Switch Contact Basic Design:

Nonpile-up nonsymmetrical

Mounting Method:

Threaded bushing single mounting facility

Switch Actuator Indexing Position Quantity:

3 single actuator

Terminal Type:

Tab w/screw

Switch Actuator Positioning Increment:

45.0 degrees single actuator

Switch Actuator Stop Device Type:

Fixed stop single actuator

Contact Load Current Rating:

10.0 amperes resistive load highest ac voltage rating at sea level 10.0 amperes resistive load lowest ac voltage rating at sea level

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
