Overall Length:

2.930 inches

Overall Height:

1.457 inches

Overall Width:

1.340 inches

Individual Section Quantity:

4

End Application:

4931-01-082-1547

Mounting Method:

Base single mounting facility

Actuator Type:

Thumbwheel single actuator

Features Provided:

Rfi shielding

Switch Actuator Indexing Position Quantity:

10 single actuator

Terminal Type:

Wire lead

Readout Indicator Marking:

1, 2, 3, 4 single section

Special Features:

Waterproofing-mtg. Screws must betightened with a torque of 24 inch-ounce to provide sealing of 2-3 psig pressure, do not use lock-washers

Color:

Natural single body

Style Designator:

Rectangular inline indicating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A052b0
