Body Style:

Hole mount

Actuator Style:

Round

Actuator Position-action Relationship:

Up position maintained and down position maintained and center position maintained

Maximum Voltage Rating In Volts:

32.0 dc

Inclosure Type:

Fully enclosed

Nonpile-up Contact Arrangement:

1 pole, double throw, both positions maintained single switch unit

Contact Load Current Rating At Maximum Rated Voltage:

20.000 amperes resistive dc

Terminal Type And Quantity:

3 tab w/screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A053a0
