Thread Length:
0.125 inches single mounting facility
Hazardous Locations/environmental Protection:
Oil resistant
Individual Section Quantity:
1
Switch Contact Basic Design:
Nonpile-up nonsymmetrical
Mounting Method:
Threaded bushing w/panel seal single mounting facility
Features Provided:
Actuator knob
Switch Actuator Indexing Position Quantity:
3 single actuator
Terminal Type:
Screw
Switch Actuator Positioning Increment:
45.0 degrees single actuator
Switch Actuator Stop Device Type:
Fixed stop single actuator
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A052b0
