Operating Temperature Rating:

Between 32.0 degrees fahrenheit and 180.0 degrees fahrenheit

Special Features:

Switch is electrically operated; switch contacts electrical rating 0.5 amps resistive or inductive at 6-32 vdc or 10 w at 110-120 vac; life expectancy; 100,000 make break cycles min; pressure range: 0 to 200 psi; 4.438 in. Lg, 2.500 in. W, 3.500 in. From c of outlet to top of switch; body and nut bronze material, bonnet assembly and spring monel, o-ring buna n, washer polytetrafluoroethylene, strain relief nylon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A048b0
