End Application:

Sa-2576/g switching unit digital

Functional Description:

Sa-2576/g digital switching unit is capable of switching any pair of 96 rs-422a inputs to any of 32 rs-422a outputs, the unit can be remote or manual

General Description:

115 vac, 47-63 hz, single phase, 380 watts, input impedance greater than 40000 hms, bit error less than 1 in 10e9 bits, input/output delay less than 0.2 usec, input frequency 0 to 500 kbs, switching time less than 25 msec, control i/o-ieee 488, input signal-eia rs 422a, 17.43 in high by 19 in wide by 22 in depth, rack mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
