Body Length:

0.420 inches

Body Width:

0.610 inches

Case Material:

Plastic

Actuator Height:

0.060 inches

Actuator Position-action Relationship:

Center position maintained and left position maintained and right position maintained

Maximum Voltage Rating In Volts:

20.0 dc

Nonpile-up Contact Arrangement:

2 pole, double throw, both positions maintained single switch unit

Contact Load Current Rating At Maximum Rated Voltage:

20.000 milliamperes resistive dc

Special Features:

Mounting by printed circuit terminals

Precious Material And Location:

Contacts gold

Terminal Type And Quantity:

12 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A053a0
