Temperature Sensing Element Type:

Spring or disc

Operating Temperature Rating:

Between 0.0 degrees fahrenheit and 300.0 degrees fahrenheit

Features Provided:

Hermetically sealed case

Terminal Type:

Tab, solder lug

Contact Load Current Rating:

13.3 amperes resistive load single voltage

Contact Voltage Rating In Volts:

125.0 ac at sea level single voltage

Style Designator:

Disc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A048b0
