Overall Length:

2.376 inches

Overall Height:

2.250 inches

Overall Width:

2.250 inches

Shaft Diameter:

0.250 inches single actuator

Shaft Length:

0.938 inches single actuator

Distance Between Mounting Facility Centers:

1.500 inches single mounting facility

Individual Section Quantity:

1

Pole Quantity:

1 single section rear

Mounting Method:

Threaded hole single mounting facility

Mounting Facility Pattern:

Two position in-line single mounting facility

Switch Actuator Indexing Position Quantity:

34 single actuator

Shaft Type:

Round single actuator

Terminal Type:

Turret

Switch Actuator Positioning Increment:

10.0 degrees single actuator

Style Designator:

Tap, square frame

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A052b0
