Hazardous Locations/environmental Protection:

Oiltight

Individual Section Quantity:

1

Switch Contact Basic Design:

Nonpile-up nonsymmetrical

Features Provided:

Actuator knob

Cam Actuated Switch Contact Arrangement:

1 two circuit, double break/double make, both positions maintained single switch single section periphery

Switch Actuator Indexing Position Quantity:

3 single actuator

Switch Actuator Positioning Increment:

45.0 degrees single actuator

Special Features:

Knob contains coin slot

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
