Individual Section Quantity:

1

Switch Contact Basic Design:

Nonpile-up nonsymmetrical

Mounting Method:

Threaded hole single mounting facility

Features Provided:

Actuator knob

Mounting Facility Pattern:

Two position in-line single mounting facility

Switch Actuator Indexing Position Quantity:

2 single actuator

Terminal Type:

Screw

Switch Actuator Positioning Increment:

90.0 degrees single actuator

Switch Actuator Stop Device Type:

Fixed stop single actuator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A052b0
