Individual Section Quantity:
2
Features Provided:
Actuator knob and spring return and legend plate and cam actuated
Switch Actuator Momentary Position:
Clockwise single actuator and counterclockwise single actuator
Cam Actuated Switch Contact Arrangement:
1 pole, single throw, normally open, double make, momentary action each switch each section in-line
Switch Actuator Indexing Position Quantity:
3 single actuator
Switch Actuator Positioning Increment:
45.0 degrees single actuator
Special Features:
Legend plate reads: system test sw, norm, neut, gen
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
