End Application:
Fleet exercise system, torpedo mk50
Terminal Type:
Wire lead
Special Features:
Insulation resistance 100 meghomsmin with 500 +/- 50 vdc (current limited) potential between wires, and connector and wires, max allowable
resistance per one circuit-0.200 ohms for 24awg
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
