Body Style:

Panel mounted

Body Length:

1.729 inches

Body Width:

0.750 inches

Body Height:

0.750 inches

Maximum Voltage Rating In Volts:

28.0 dc and 115.0 ac

End Application:

Mc130e

Mounting Surface To Terminal End Distance:

1.914 inches

Inclosure Type:

Fully enclosed

Mounting Method:

Integral

Contact Load Current Rating At Maximum Rated Voltage:

7.500 amperes resistive ac and 4.000 amperes inductive ac

Special Features:

Art work 52182 - legend "lamp"1stline & "test"2nd line; daylight visablew/no lamp as white lettering on black background, night visable w/back lightgreen lettering on black background ; requires quick connector p/n 18-200 ; lamp p/n 14-104 (ms3338), 28v, .024ampspdt-db, momentary; op temp -55 to 85c

Terminal Type And Quantity:

9 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A053a0
