Overall Height:

1.770 inches

Overall Width:

1.660 inches

Material Thickness:

0.040 inches

Body Height:

1.000 inches

End Application:

Oliver perry class ffg; tarawa class lha

Opening Inside Diameter:

0.240 inches

Special Features:

Heat shrinkable, dimensions are after unrestricted recovery

Material:

Plastic polyolefin body

Material Specification:

Sae as81765/1, type 1 assn standard single material response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02000
