Overall Length:

2.550 inches

Outside Diameter:

0.125 inches single connection

End Application:

Spin-on hydraulic filter, parker, models 12at and 50at

Pressure Switch Type:

Differential

Mounting Method:

Input port

Thread Size:

0.125 inches single pressure connection

Terminal Type:

Screw

Contact Load Current Rating:

1.0 amperes resistive load single voltage

Contact Adjustability:

Actuation point not adjustable

Contact Stimulus Rating:

5.00 actuation point inches of vacuum

Pressure Connector Type:

Plain, threaded external single connection

Special Features:

Vacuum switch

Media For Which Designed:

Liquid

Style Designator:

Cylindrical

Thread Series Designator:

Nptf single pressure connection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A048b0
