Ac Voltage Rating:

Between 125.0 volts and 250.0 volts

End Application:

Main generator, part number f2216aag01 aboard 420 ft wagb coast gurd vessels

Operating Tempurature Rating:

220.0 degrees fahrenheit

Maximum Current Rating:

5.0 amperes resistive load

Special Features:

Brass body with external float chamber; pressure rating 250 psi; minimum specific gravi type 0.9

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T109-d
