**Overall Length:**

1.430 inches

**Overall Height:**

0.063 inches

**Overall Width:**

0.870 inches

**Unthreaded Mounting Hole Diameter:**

0.156 inches all mounting facilities

**End Application:**

High frequency radio repair

**Accommodated Item Securing Device Type:**

Holes

**Mounting Facility Type And Quantity:**

2 unthreaded hole all mounting facilities

**Features Provided:**

Nut

**Material:**

Aluminum alloy 5052

**Material Specification:**

Qq-a-250 federal specification single material response

**Surface Treatment Specification:**

Mil-c-5541 military specification single treatment response

**Style Designator:**

Plate type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A062a0

**Mil-std (military Standard):**

Mil-c-5541 spec.
