Average Life Measurement:

Not rated

End Application:

Cpca apras

Basic Shape Style:

Rectangular or square

Inclosure Type:

Partially enclosed

Installation Design:

Rack

Control Type:

Local

Circuit Construction Type:

Solid state

Special Features:

G20-channel gp switch module to cycle power to products-under-test, control indicators and status lights, activate external relays requiring large drive signals and to build custom switch configurations

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
