Operating Temperature Rating:

Between -65.0 degrees fahrenheit and 225.0 degrees fahrenheit

Proof Pressure:

50.00 pounds per square inch

Terminal Type:

Wire lead

Contact Load Current Rating:

1.0 amperes resistive load single voltage

Special Features:

Stainless steel; capsule type sensor; miniature; cycle rate not to exceed 22 cpm; 1/8-npt male connection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A048b0
