**Operating Temperature Rating:**

Between -65.0 degrees fahrenheit and 225.0 degrees fahrenheit

**Proof Pressure:**

100.00 pounds per square inch

**Terminal Type:**

Wire lead

**Contact Load Current Rating:**

1.0 amperes resistive load single voltage

**Special Features:**

Stainless steel; capsule type sensor; miniature; cycle rate not to exceed 22 cpm; 1/8-npt male connection

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A048b0
