End Application:

Fixture assembly holding interface device niin 33-004-1736

Pressure Switch Type:

Differential

Contact Action Stimulus:

Increase

Criticality Code Justification:

Agav

Product Name:

(inavy)pressure sensor, aircraft

Special Features:

2ports; straight tubes for 1/8inch id tubing/gasket/o-ring; op temp-40degc to 120degc; op press 0.05inch h2o through 550inch h2o; contact resist 5milliohm max; burst press 25psig; life cycle 100000000 cycles

Media For Which Designed:

Liquid

Style Designator:

Rectangular w/bracket

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A048b0
