Overall Length:

2.750 inches

End Application:

Control panel

Accommodated Item Securing Device Type:

Threaded hole

Mounting Facility Type And Quantity:

4 threaded hole all mounting facilities

Special Features:

Bracket, switch and pot mounting; machined and engraved; black anodized finish

Material:

Metal

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type x, class 2 military specification single treatment response

Style Designator:

Rectangular with/without mounting holes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A062a0

Mil-std (military Standard):

Mil-a-8625 spec.
