**Operating Temperature Rating:**

Between -50.0 degrees fahrenheit and 105.0 degrees fahrenheit

**Special Features:**

Ve series-surface temperature sensors, miniature size, direct metallic heat conduction, rapid response high shock and vibration characteristics, field adjustable, hermitically seal, rating 115vac resistive

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A048b0
