Overall Length:

2.000 inches

Overall Width:

0.875 inches

End Application:

Receiver transmitter radar rt-1809/frs-131

Special Features:

Electro mechanical air velocity sensors ls and fs series, nominal factory setting tolerance 100 ft/min, consult factory for thresholds below 150 ft/min use standard miniature 9 pin socket

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
