Overall Length:
2.000 inches
Overall Width:
0.875 inches
End Application:
Receiver transmitter radar rt-1809/frs-131
Special Features:
Electro mechanical air velocity sensors Is and fs series, nomial factory setting tolerance 100 ft/min, consult factory for thresholds below 150
ft/min use standard miniature 9 pin sockel
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A32200
