Operating Temperature Rating:

Between -40.0 degrees fahrenheit and 212.0 degrees fahrenheit

Mounting Position:

Horizontal

Special Features:

Solid state sensor must be mounted horizontally or up to 45 degrees from horizontal only; operating pressure zero to 2500 psi; zinc/nickel-plated carbon steel with fused glass prism

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T109-d
