End Application:

Food warmer model no. Ffw1/2/3 or 4

Mounting Method:

Bracket

Contact Load Current Rating:

10.0 amperes resistive load first voltage

Contact Voltage Rating In Volts:

120.0 ac at sea level first voltage

Special Features:

Manufacture name: thermostat, capillary tube type; used on a food warmer

Frequency In Hertz:

60.0 first voltage

Style Designator:

Rectangular w/bracket

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A048b0
