**End Application:**

Compressor, reciprocating. Breathing air compressor.

**Special Features:**

The complete part number is "no3925/asy". This is a tempature switch, normally closed which monitors the final valve head temperature on bauer compressors. It is set to 320 degrees fahrenheit and will close a circuit and shut off the compressor if the head exceeds this degree.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
