End Application:

738592 (53711) fuel/electronics assembly, rmv.

Special Features:

Terminal insulator guards. Constructed of tough, high temperature polyvinyl chloride compound rated at 190 degrees (90 degrees c) . Pvc compound is self extinguishing and meets v-94-v2 flammability rating.

Material:

Plastic polyvinyl chloride insulator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02000
