End Application:

738592 (53711) fwd propulsion section assembly, rmv

Pressure Switch Type:

Gage

Proof Pressure:

420.00 pounds per square inch gage

Special Features:

Texas instrument p/n: 79psd4-1). Switch detects the high side low pressure associated with either loss of charge or low ambient temp, and senses compressor high side pressure. "cut-out" action occurs when system pressure reaches 380-420 psig range. Switch is accompanied by 18.0 gauge wires off the back end.
