Overall Length:

17.250 inches

Overall Height:

1.750 inches

Overall Width:

7.250 inches

Operating Temperature Range:

+0.0/+40.0 degrees celsius

Basic Shape Style:

Rectangular or square

Identification Designator:

0t156at-8624t/2m-50

Inclosure Type:

Encased

Installation Design:

Top of cabinet/counter

Circuit Construction Type:

Solid state

Operating Ac Frequency In Hertz:

50.0 single voltage and 60.0 single voltage

External Ac Operating Voltage In Volts:

240.0 single voltage

Product Name:

Layer 3 fast ethernet switch

Special Features:

Full qos multimedia applications; wirespeed; port trunking with link aggregation; stacking with open standards based interfaces support up to 255 vlans; bandwidth limiting; vrrp support; rapid spanning tree protocol; european power cord

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
