End Application:

Continuous compressed ice maker wcc-500

Basic Shape Style:

Rectangular or square

Inclosure Type:

Open

Installation Design:

Module

Circuit Construction Type:

Solid state

Product Name:

Bin control

Special Features:

Includes a cable assembly which has a sensor probe at the end.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
