End Application:
Continuous compressed ice maker wcc-500
Basic Shape Style:
Rectangular or square
Inclosure Type:
Open
Installation Design:
Module
Circuit Construction Type:
Solid state
Product Name:
Bin control
Special Features:
Includes a cable assembly which has a sensor probe at the end.
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A32200
