End Application:

Guided missile frigate

Operating Temperature Rating:

-20.0 degrees fahrenheit and 300.0 degrees fahrenheit

Product Name:

Flow sensor

Special Features:

Stainless steel primary construction material; fixed setting type; polytetrafluoroethyleneshuttle; 1 inch npt to 2 inch npt port size; 0.5gpm to 100.0 gpm flow rate settings

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A048b0
