Body Style:

W/ front operator

Center To Center Distance Between Mounting Facilities Parallel To Length:

7.280 inches

Center To Center Distance Between Mounting Facilities Parallel To Width:

4.000 inches

Actuator Style:

Round

End Application:

Control panel, stern gt 149-003a

Mounting Method:

Base and flange

Product Name:

Rotary switch

Special Features:

Included in composite box: 1 ea. Rotary switch, nsn 5930-01-485-6417; 1 ea. Terminal board/block, nsn 5940-00-702-3733; 1 ea. Connector, p/n 712-381c06; and 1 ea. Connector, p/n 712-475xb22nek; switch actuator has 12 selections on face.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A053a0
