Overall Length:

24.000 inches

Overall Height:

9.000 inches

End Application:

ASSA-UL-TAM-PHIB

Mounting Method:

Press fit

Product Name:

Handle, linear actuator

Special Features:

Drive end dimensions shall conform to 0.500 inch male end square drives per astm b107.4; apply id marking by metal stamp, arc pencil, or ink stamp per mil-std-130 with letter height of 0.250 inches; nha is p/n 7003028

Material:

Steel comp 1023 body

Material Specification:

Astm a576 assn standard single material response body

Surface Treatment Specification:

Astm b633 assn standard single treatment response handle

Style Designator:

Lever

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A250a0
