End Application:

Falcon 900, aircraf (dassault falcon jet hydraulic system)

Operating Tempurature Rating:

Between -67.0 degrees fahrenheit and 203.0 degrees fahrenheit

Proof Pressure:

4500.00 pounds per square inch gage

Contact Load Current Rating:

3.0 amperes resistive load single voltage

Special Features:

Switch operates on increasing pressure at 2150+/-100 psig and decreasing pressure at 1500+/-100 psig; system pressure: 2900 to 3620 psig max; proof pressure: 4500 psig; burst pressure: 6000 psig; electical rating: 3 amp inductive at 28vdc; weight: 0.36 lbs max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A048b0
