Hazardous Locations/environmental Protection:

Dusttight

End Application:

Panel, control, a/c

Pressure Switch Type:

Differential

Mounting Method:

Bracket

Contact Action Stimulus:

Increase

Terminal Type:

Wire lead

Contact Load Current Rating:

5.8 amperes resistive load first voltage and 2.9 amperes resistive load first voltage

Contact Voltage Rating In Volts:

240.0 ac at sea level second voltage

Product Name:

Encapsulated pressure switch

Special Features:

Export controlled drawing; includes conduit clamp; 48 inch lead; spst - normally open, momentary action

Media For Which Designed:

Gas or liquid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A048b0
