**Hazardous Locations/environmental Protection:**

Dusttight

**End Application:**

Panel, control, a/c

**Pressure Switch Type:**

Differential

**Mounting Method:**

Bracket

**Contact Action Stimulus:**

Increase

**Terminal Type:**

Wire lead

**Contact Load Current Rating:**

5.8 amperes resistive load first voltage and 2.9 amperes resistive load first voltage

**Contact Voltage Rating In Volts:**

240.0 ac at sea level second voltage

**Product Name:**

Encapsulated pressure switch

**Special Features:**

Export controlled drawing; includes conduit clamp; 48 inch lead; spst - normally open, momentary action

**Media For Which Designed:**

Gas or liquid

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A048b0
