Pressure Switch - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5930-01-566-1436

Hazardous Locations/environmental Protection:
Dusttight
End Application:
Panel, control, a/c
Pressure Switch Type:
Differential
Mounting Method:
Bracket
Contact Action Stimulus:
Increase
Terminal Type:
Wire lead
Contact Load Current Rating:
5.8 amperes resistive load first voltage and 2.9 amperes resistive load first voltage
Contact Voltage Rating In Volts:
240.0 ac at sea level second voltage
Product Name:
Encapsulated pressure switch
Special Features:
Export controlled drawing; includes conduit clamp; 48 inch lead; spst - normally open, momentary action
Media For Which Designed:
Gas or liquid
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A048b0
