Overall Length:

1.100 inches

Overall Diameter:

0.390 inches

Display Type:

Full

Special Features:

5a, 28vdc (resistive) or 1a, 28vdc, 600mh (inductive); four solder connections; for use with panel thickness between 0.036 ande 0.064

inches; operating temp -26/70 c; endurance 50, 000 operations , mechanical 100, 000 operations

Material:

Aluminum and rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500k0
