End Application:

Air conditioner, 3 ton, 1620c0000

Product Name:

Two pole high pressure control

Special Features:

The p72 series of controls employs a set of dpst contacts that are opened and closed by the pressure actuated bellows. The heavy duty load-carrying contacts provide direct control of motors having integral line-interrupting overload protectors up to three horsepower. See electrical ratings below. Starter is unnecessary. Primarily used on air-conditioning and refrigeration applications but also used to control air, water, glycol, and lube oil pressure.

Shelf Life:

N/a
