Mounting Method:

Terminal, wire-lead

Terminal Type:

Wire lead

Pressure Connector Type:

Swivel nut with compression sleeve, threaded internal single connection

Product Name:

Automatic reset miniature pressure control

Special Features:

For high pressure cut out application; 400/300 psig setting; automatic reset controls may be used to replace manual resets; corrosion resistant; environmentally sealed (water tight switched); non-position sensitive; low/high pressure cycling; condensor fan cycling

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A048b0
